

RUPAK SRINIVAS KOTRA

rupaksrinivaskotra18@gmail.com | +91 6303457915 | Andhra Pradesh, India | [linkedin.com/in/rupak-srinivas-kotra](https://www.linkedin.com/in/rupak-srinivas-kotra)

CAREER OBJECTIVE

To obtain an entry-level position where I can apply my problem-solving skills and continuously learn new technologies. I aim to contribute to organizational growth while enhancing my knowledge and staying updated with the latest industry trends.

SKILLS

Technical: Python, C, HTML, CSS, JavaScript, Data Structures & Algorithms, OOPs, Data Visualization, DBMS

Tools: Power BI, Eclipse, VS Code, Excel, Linux, Canva

EDUCATION

Computer Science and Engineering	CGPA: 9.26
Bapatla Engineering College,	2023 – 2027
Intermediate – MPC	96%
Board of Intermediate, Andhra Pradesh,	2021 – 2023
SSC	99%
State Board of Secondary Education, Andhra Pradesh,	2020 – 2021

EXPERIENCE

- Participated in a one-week online international workshop on ‘Mathematics Bridging Ideas and Innovations (MBII-2024)’, organized by the Department of Mathematics at Bapatla Engineering College.
- Participated in a three-day workshop on Power BI (06/11/2025 – 08/11/2025) at Bapatla Engineering College, gaining hands-on experience creating interactive dashboards and reports.
- Participated in a Generative AI Hackathon, working on a Code Optimizer problem statement to analyze and improve code efficiency using AI-driven approaches; gained hands-on experience in problem-solving, rapid prototyping, and team collaboration.

PROJECTS

Aura LLM — Intelligent Multi-Model Chat Platform — FastAPI, SQLite, Gemini API, Python, Asyncio, JavaScript, CSS3

- Built a full-stack AI chat application with a custom semantic memory system, storing vector embeddings in SQLite (WAL mode) to persist user context across sessions.
- Developed an intent-classification engine that routes queries to different models based on task complexity (speed, reasoning, or code generation).
- Implemented background context summarization and a live web-search agent to keep LLM responses current and cited.
- Designed a responsive, glassmorphic front-end with persistent sessions and offline fallback modes.

ACHIEVEMENTS

- **Certification on Machine Learning:** Developed and evaluated machine learning models using Python and Scikit-learn, including data preprocessing, feature engineering, and performance analysis.
- **Certificate on Coding Competition:** Secured Second Prize in Coding Competition.

INTERESTS

- Competitive Coding (LeetCode, Smart Interviews)
- Open-Source Contributions (GitHub)
- Data Visualization and Analytics (Power BI)
